

The "Common Thread" Art Project is funded through the Regional Initiative Grant supported in part by the Southeastern CT Cultural Coalition in partnership with the CT Department of Economic and Community Development, CT Office of the Arts, and the National Endowment for the Arts.

Local social service organizations Reliance Health, United Community Family Services, The Light House, and Horses Healing Humans have collaborated to highlight the commonalities between us all through the creative outlet of fabric art. The work displayed on these walls represents more than creative expression. It represents exploration of unfamiliar territory, the development of a community, the discovery of talent and skill, and the message that we all share a common thread.
